

HEPTINSTALLS who migrated to Georgia and Alabama (as of 6/19/2017)

***How does William Bradford Heptinstall related to the Heptinstall line in Halifax County NC?**

		Mary Frances Turner or Mary Martha Turner b. 5/1859 d. 1936 m. 7/11/1879 in Cleburne Co Alabama		<p>*Ancestors of John Calvin Heptinstall and his son William Bradford Heptinstall are a mystery. Family sources state that they were born in Halifax North Carolina.</p> <p>There is no mention of either William Bradford Heptinstall or John Calvin Heptinstall in the NC (or Virginia) family information. If his father was born around 1775, then he possibly was a <u>brother to William Heptinstall 1775-1822, son of James Heptinstall 1750-1824</u> who moved from Virginia to NC. William is the only known son of James. A 1786 marriage record in Halifax County NC states that James married Elizabeth Atherton. Since William was born in 1775, it should be assumed that there was a previous wife who was the mother to William and perhaps John Calvin.</p> <p>Another question is whether there is any connection of the Bradford middle name of William Bradford Heptinstall to the wife of William H Heptinstall 1775-1822, Dorothy Bradshire. They were married around 1793, although the first child that we know of was born around 1804. There actually were many Bradshires in the area at this time, French Huguenots, passing through on the way to more southern states.</p> <p>A Bradford family was very prominent in Halifax County NC during this time so a possibility could be that the first wife was related to them. Some of the Bradford family moved south to Georgia and Alabama and therefore, could have taken John Calvin Heptinstall and his son William Bradford with them.</p> <p>The name Cary/Carrie/Carrey is interesting because it turns up in BOTH the NC and the Alabama Heptinstall families AND is also connected to the Bradford family through intermarriage with Whitaker and Careys.</p>
